Rsony.721@gmail.com | 📞: +91.789.193.8911 | 📧: Rohitsony7 | 📄: RohitSony7

Software Engineer with 6.5 years of professional experience and a good problem solver with a demonstrated history of working in the tech industry.

## SKILLS

**Frontend stack:** JavaScript, Typescript, Angular, HTML, CSS, Angular Material, JQuery, Bootstrap

**Back-end Stack:** Node.js, Express.js,

**Data visualisation :** Chart.js, D3.js, Open street map, High chart

**Message Queue:** Kafka, RabbitMQ

**Version tool:** GIT

**Operating Systems** Linux, MacOS, Window

## EDUCATION

**Bachelor in Technology with HONOURS in Computer Science & Engineering, 2019**

Jaipur Engineering College and Research Centre  
Jaipur, India

## CERTIFICATES

FreeCodeCamp: JavaScript Algorithms and Data Structures Developer

FreeCodeCamp: Responsive Web Design certification

**MENTOR | NEWTON SCHOOL**

Feb. 2022 – Dec. 2024 | Remote

- Provide personalized mentorship and insightful lessons to guide students and professionals in full-stack development, address queries promptly, conduct code reviews, collaborate on curriculum development, and organize coding workshops to enhance practical skills.
- Mentoring · Teaching · Algo · Node.js · React.js · Angular · Core Java · JavaScript · Data Structures

## LANGUAGES

ENGLISH | HINDI

## EXPERIENCE

**JUMIO CORPORATION | SDE III (WEB)**

Apr 2025 – Present | Remote

- Spearheading frontend development using **Angular** and **Node.js** in a modular monorepo architecture for apps like Explorer, Rules Engine, and Dashboard.
- Improved performance and maintainability of critical modules through change detection tuning, lazy loading, and code refactoring.
- Maintained and documented the internal **JTM Component Library**, ensuring UI consistency and reducing duplication across teams.
- Accelerated development using **LLMs** (Claude, ROO Code, AI Studio) to automate workflows and streamline prototyping.
- Tools: Angular, Node.js, Nx Monorepo, CI/CD, Jira, Git, SCSS, TypeScript, Claude, AI Studio.

**JIO PLATFORMS LIMITED | LEAD FRONTEND ENGINEER**

Nov. 2020 – April 2025 | Mumbai, India

- Led the architecture, design, and implementation of the **JIO UAP**, an internal issue tracking system for managing trouble tickets across telecom infrastructure.
- Spearheaded development of the **JIO Learning Platform**, streamlining employee onboarding and training workflows for both admin and users.
- Drove UI development for **JIO GPT**, an AI-powered chatbot, and **JIO Office**, integrating Collabora Online for document collaboration.
- Designed and delivered the complete frontend architecture for **JIO SON (Self Organizing Network)**, a dynamic dashboard platform for managing large-scale network devices and generating live reports.
- Built a pan-India telecom visualization interface using OpenStreetMap and Chart.js with multiple GEO JSON layers.
- Implemented lazy loading in JIO NMS core application, reducing main.js bundle size by **97.4%** (from 976 KB to 25 KB), resulting in significantly faster load times.
- Developed reusable frontend components and published internal **NPM packages**, reducing project build size by **23% to 30%** across multiple products.
- Technologies: Angular, TypeScript, JavaScript, HTML, CSS, Angular Material, RxJS, Java, Git, Docker, OpenStreetMap, Chart.js.

**CELEBAL TECHNOLOGIES | FULL STACK SOFTWARE ENGINEER**

July 2020 – Nov. 2020 | Jaipur, India

- Built full-stack features for **CT-Mining**, enabling data training workflows and frontend interfaces for ML datasets.
- Developed the **Dalmia Cement Web App** for dynamic parametric calculations across large datasets using custom filters.

**ROBOMQ | SOFTWARE DEVELOPMENT ENGINEER**

Jan. 2019 – May 2020 | Jaipur, India

- Worked on **RoboMQ Connect iPaaS**, building UI components, APIs, and automation tests using Angular and Node.js.
- Collaborated with global teams and supported feature documentation.
